

HOW ECO-FRIENDLY IS OUR SCHOOL?

PAST ACCOMPLISHMENTS

Saving energy through **sensor lighting** in some classrooms and offices.

Efficient water consumption through **automatic faucets**.

Recycling bins in hallways and classrooms and partnership with Ladygreen.

Use of compostable **paper trays** and **straws** in the cafeteria.

Concious use of the cafeteria's **venting system** to save energy.

Green club (**CLIP club**) that raises awareness and works on monthly projects.

WHAT WE ARE WORKING ON:

Replacing disposable with **reusable hall passes** ones to reduce paper waste

Creating greater **awareness** on our recycling system to make it more efficient

Using ISPA's **social media** to spread consciousness on sustainable practices

Preparing the school to apply for the **Florida Green School Designation**.

Using **napkin dispensers** to reduce the waste of plastic utensils.

Switching plastic salad containers to **compostable containers**.

Reducing the use of paper promoting the use of **technology**.

Creating the **green ISPA** initiative to improve ISPA's environmental footprint.
